

Toulouse Business School

Toulouse Business School

Toulouse Business School was founded in 1903 by the Toulouse Chamber of Commerce and Industry. The initial function of the school was to respond to the needs of local businesses by providing able business administrators.

The school has 5 campuses located in the heart of dynamic cities, such as Toulouse, Barcelona, Casablanca, Paris and London. It also has alliances with top academic institutions and multinational corporations across the globe. This lets them offer a broad core curriculum of undergraduate and

graduate degrees for business and management students.

With over 180 partner universities across 52 countries worldwide, the university offers students global mobility through exchange and research programs with other leading international business schools.
