Activities

Attend 2 days a week and obtain an MBA

It is a time-consuming burden for many office workers to work and attend courses at the same time, which is a big consideration when choosing an MBA program. The EMBA at Sungkyunkwan University Business School is a program that solves this challenge, operating intensive classes on Saturdays as well as evening classes during the week.

Strengthen practical skills with problem/case/discussion-oriented curriculum

The EMBA program enhances practical skills by operating a problem/case/discussion-oriented curriculum. Through special lectures by various working-level personnel, students' future competitiveness can be strengthened further.

Enhance global competency with global learning seminar twice a year (varies depending on the situation)

Using the summer and winter vacations, we hold a global learning seminar. Visiting foreign universities and companies, including those from Europe and the United States as well as Asia conduct classes on cross-cultural issues and prepare team-by-team reports.

Select EMBA degree title

EMBA degrees are divided into five specific titles: Management, ICT & Data Analytics, Marketing, Accounting, and Finance. If students acquire the required number of credits for one of the five majors they choose, they will be granted an EMBA degree with the respective title.
