

Invitation

Paying Our Debts to Memory!

To commemorate the 5th anniversary of the National Debt Redemption Movement (NDRM) records being registered as the UNESCO Memory of the World, and to discuss the strategies to spread spirits of sharing and responsibility and the value of the NDRM throughout the world, “Yoo Sung-kull”, the member of the National Assembly, the Commemorative Association of the National Debt Redemption Movement and the Korean Library Association (KLA) have co-hosted an international academic conference.

Last year, ‘The Commemorative Association of the National Debt Redemption Movement’ held an online international academic conference with domestic and foreign experts to discuss mid-to-long-term strategies for the preparation and practical application of digital archives for the National Debt Redemption Movement records.

This international conference will serve as a starting point for implementing the strategies we have established so far. Spending time at the conference to discuss and design ways to build an archive system based on international standards will definitely be a meaningful time. And which will make the digital archive of the National Debt Redemption Movement become a world-class best practice for cultural heritage management institutions.

We also have invited overseas experts standing out in various fields to share academic opinions with you. We sincerely look forward to your participation.

November, 2022

Shin Dong-hak,

President of the Commemorative Association of the National Debt Redemption Movement
