

## Guidelines in case of having suspected symptoms of coronavirus (COVID-19)

1. If you have a fever over 37.5 degrees or have respiratory symptoms, **DO NOT COME TO SCHOOL/WORK**
2. Call the healthcare centre on campus (NO VISITING) and then follow the given instructions after the phone consultation
3. Call the affiliated campus healthcare centers at night or during holidays, and follow the given instructions after the phone consultation (NO VISITING)
4. Monitor health conditions at home resting for at least 3-4 days
5. If your fever over 38 degrees persists or your respiratory symptoms do not improve, please call the regional healthcare for inquiry or visit selected screening health clinic (wearing a mask is mandatory)
