Objectives & President's Greetings

Event Objectives

Haeparang means to walk with the rise of the sun and the blue ocean as our company. For the 2017 walkathon, we will approximately be covering 250km of distance with the sun and the blue ocean as our companion. During the walkathon, there will exist hardship and pain, but to endure such adversity is our aim of the 'With SKKU, with Haeparang'.

The walkathon, is not merely what it looks like, but rather an opportunity for students from universities of SKKU, Peking and ShangHai Jiao Tong to interact with one other on a global scale, sharing their own unique cultures during the cultural night and through the night of harmony.

President's Greetings

Welcome to all future world leaders of Sungkyunkwan and Peking University! Before you become the first-class in the world, I hope you can have an opportunity to become stronger by overcoming the hardships, away from the affluent and stable daily life.

president Jung Kyu-Sang

SKKU Student Union's Greetings

Natural Science Campus

Greetings, we are Sungkeum; the student counsel of the natural science campus.

We are honored to be together with the 10th global walkathon.

The start of the walkathon was back in 2008.

In 2012, we joined together with the Peking university students.

Last year, the ShangHai Jiao Tong university joined us.

As the years go by, we were able to meet people from around the globe in our rapidly changing society.

We are honored once again, to be together with Peking and Shanghai Jiao Tong university.

For this walkathon, we have chosen the Haeparang road.

Haeparang means to walk with the rise of the sun and the blue ocean as our company.

The sun which is always with us, and the ocean which can not be seen often.

The sun probably signifies the students of SKKU, the ocean resembling both Peking and Shanghai Jiao tong universities.

We wish that through the opportunity of the walkathon we can all be one.

We have been preparing the walkathon for a long time of period, and we are excited.

We expect to see students go past the finish line by helping one another in difficult situations.

Though hardship faces us, we are looking forward to the jolly faces when reaching the finish line and with this we end our greeting.

Thank you.

SKKU Student Union's Greetings

Human Society & Science Campus

Welcome to 2017 SKKU Walkathon! We are Sungkeum, the 49th Student Union of Sungkyunkwan University of Human Society and Science Campus. It is a great pleasure to be able to greet all of you as members of this Walkathon.

Haeparang Trail, which means "to keep the rising sun from the East Sea and the Blue Sea company, as the walk together" is the trail we will be following through this walkathon. We want to emphasize our excitement as we will also be your company on the road. As we leave our tracks behind, I hope that we find each other as company who is able to encourage one another.

As we know, both of our countries have many cultural aspects in common. For our school's main ideology 仁義禮智 and 修己治人 are based on the teachings of Confucius. These similarities will be the base to connect us as great companion.

2017 SKKU Walkathon will be a great opportunity for us to build global relations between two countries. Through all the sceneries, the walkathon will be a chance to overcome your limit to become a person that is able to face any circumstance. Most importantly we will be part of the journey.

Once again, we welcome you all to walkathon and appreciate your support. Thank you.

College Introduction

Sungkyunkwan University

Sungkyunkwan University has two campuses currently, located in Seoul(Humanities & Social Sciences) and Suwon(Natural Science), South Korea. It was founded in 1398 during the Joseon Dynasty, formerly known as the Sungkyunkwan University(成均館).

Sungkyunkwan University currently has twelve schools and four colleges offering degrees at the bachelor's level, and twelve graduate schools confer various degrees at masters and doctoral levels. It consists of about 4,250 professors and 35,000 students in various different courses.

As Korea modernized and underwent social and economic reforms, Sungkyunkwan University has played an important role in academic freedom in higher education and also kept alive traditional ethics in Korean society.

College Introduction

Peking University

Peking University is located in Beijing, China. It was established in 1898, formerly called the imperial University of Peking. It is the first modern national university in China, and considered as one of the top 3 universities in Asia together with University of Tokyo and National University of Singapore.

Peking University currently has Humanities, Social Science, Science, information & Engineering and Medical departments, with both regular and graduate courses established. It consists of about 4,200 professors, 15,000 undergraduates and 15,000 postgraduates.

The main campus located in Beijing covers an area of about 274m2, and there are historical remains such as the Summer Palace and the Old Summer Palace nearby. It is also located close to the Zhongguancun High-tech Zone and Tsinghua University.

College Introduction

Shanghai Jiao Tong University

Shanghai Jiao Tong University (SJTU), as one of the higher education institutions which enjoy a long history and a world-renowned reputation in China, is a key university directly under the administration of the Ministry of Education (MOE) of the People's Republic of China and co-constructed by MOE and Shanghai Municipal Government. Through 121 years' unremitting efforts, SJTU has become a comprehensive, research-oriented, and internationalized top university in China.

With profound cultural background, an age-old tradition on education, strenuous development history, and great achievements made since the reform and opening up, SJTU has attracted wide attention both inside and outside China. Carrying the mission of preserving cultural heritage, and seeking for the truth, bearing the responsibility of invigorating the Chinese nation and developing for the benefits of mankind, today this centennial university is sailing for the aim of becoming a comprehensive, research-oriented and internationalized world-class university.

**Haeparang course 20**

Starts from the mouth of the 20 course-50 stream port, the course can be experienced with the wind and sun, while having the mountain and ocean on both sides. With the 24th group of aerogenerators, Mt. Bbulban's beacon fire station, Haemaji park and furthermore with the representative writer's monument of poems, renewable energy and historical culture one can, without a doubt, experience the province of Youngduk.

Haeparang course 21

A peaceful road with blue skies and deep oceans. Along the never-ending coastal path are hidden sceneries with Seokri villages, king crab origin village and more small coastal villages can be seen. The view from the Jukdo mountain observatory is something different. The course stresses the beauty of Youngdeok's nature which can be felt distinctly.

Day 5 | 7.22(Sat)
